

# FELIX FAMILY VILLAGES INTERNATIONAL

## AFRICA - KENYA

On behalf of Mzwanenyi Primary School, school committee, parents, teachers, pupils we kindly appreciate your great support and the feeding program since the beginning of this year up to the end of this 2nd term, the whole community is happy, especially the pupils, it has broken the truancy we had and we have greatly improved academically.

God bless you abundantly as we pray God to touch you in this support next term as we prepare our candidates in their final National exam.

We sincerely thank you from the deepest of our heart.

*Md Silas(headmistress)*

## THAILAND

It is with great joy and gratitude that we write to you again. You feel so close to us in the Ministry of Felix Family Village in Surat Thani, Thailand. Thank you for sending greetings to our children and families.

It is appreciated! With pride and pleasure they are showing photos and postcards they have received from you. Now your notes are posted on the family's refrigerator or walls. Although the text of the greetings are in another language, it means a lot for the kids to know that they have friends who are with them and who provide

support. Our families in the Felix Village are working hard to take in more children into their families.

The need to give abandoned children a family is large and sometimes it seems almost impossible with the knowledge that there are millions of children without a family. They live on the streets, in institutions or other places where a child should not have to grow up. Our children and young people are doing well. We have received a new pair of children during recent times. They're usually scared and insecure when they come as they do not know what to expect. However, it takes not many days until they are comfortable in their new family with mother, father and siblings. Many children quickly join the new ones in playing together, mostly outside. They ride their bikes, play football and have fun together.

Thank you for being there giving your help and support for our children so they can have a new life and a new future.

## ROMANIA

We know that family is of utmost importance when it comes to a child's development and we are happy that we can be a family for our children. We have been with them for a year and a half and we watch the changes that have constantly occurred in their lives with a lot of interest. They grew, they started to mature, and we saw them learning from mistakes and enjoying success.

We feel honoured to be part of this wonderful plan for the life of our children. We believe that God has a plan full of hope for each child. Our major challenge is to help the children to know the God who cares for them, who cares about them – this wonderful God who has an eternal plan for everyone, not just for a while.

We are glad to be able to tell our children that Someone loves them with an everlasting love and that He will never leave them. We often

see, in the fellowship we have together, that they listen with interest what we tell them about this wonderful God of ours, who values them a lot.

Just today, we were talking to some of them about how God wanted to show them how important they are to Him: He offered us what was most expensive to Him - His Son Jesus Christ. And this expensive gift was given to each of them. I saw them being touched by the message of love, in a profound way. My joy was great because I felt and saw the Spirit of God working to heal their hearts, which are wounded by those who should have kept them, loved them and protected them, yet did not do it.

We pray for them and we believe that He will do great things for our children! That is why we invite you to be a part of the wonderful work of God in their lives!

*Florin & Tabita Copil, parents in Cypress House - Felix Family Village 2*
