

# FELIX FAMILY VILLAGES INTERNATIONAL

• OCTOBER 2012

[WWW.FELIXFAMILYVILLAGES.ORG](http://WWW.FELIXFAMILYVILLAGES.ORG)

## *Felix Family Thailand - Surat Thani*

It is with great joy and thankfulness we write to you again. Our children and families are doing fine.

How exciting it is to see the village growing as more more families and children are moving in. When you enter into the grounds of the Felix Village, you are met by many happy children playing and having fun. The small children are often in the arms of their parents or close to them. It is an atmosphere of peace and joy!

There are projects waiting for us now like, building the next 3 houses, the Multi Purpose Building and finish the road around the village. Another big and needed

project that has to be done is to build a fence around the village. We need that for many reasons. One major reason is to protect our children from falling into the river that goes around the village. It has been some years since we had the opening of the first four houses. We remember that day in a special way as it was the first step into the Felix Village. Much has happened since then. With many children in the houses and the humid weather, there has been some damage on and in the houses that we have to fix. There are still some issues outside the houses left from the flood last year that we have to repair. Most of the work can be done by the housefathers, but it gives us an extra expense. . If you feel that you can give an extra gift to one of those requests, it would be a great blessing and help.

*Lisa Egerbo - project manager*

## *Caminul Felix Romania*

Because we are at the beginning of a new year for schools and universities, we would like to thank you for the blessing that we feel due to the support that you offer for the education of our children.

We would plead with you to continue to give generous support to the Further Education Fund at Caminul Felix. It is crucial for the lives of our young ones. While thinking about the importance of the education of our children, I

remembered an old proverb that says: „Give a man a fish and you will have fed him for a day, but teach a man to fish and you have fed him for life”. Such a true statement! Feeding someone who is hungry is a necessary and important thing that we need to do. But helping him receive an education and learn how to earn by himself the money that he will need for food and all the other necessary things in life, this may be a help for his entire life.

So we encourage you to continue supporting the raising of Caminul Felix' children, but we also encourage you to offer support for the education of our children and young people. With thanks,

*Simona Puscas – the “Further Education Fund”*

All the best to you all. There is great joy and strength in your friendship.
