

Felix Family Villages International

Felix Family Villages - Romania

We joyfully greet you again! Now that spring is here, you are certainly all glad to see how everything blooms around you and feel the scent of the spring flowers. What a lovely view! By analogy, we could say that it's a beautiful painting in which every flower is a child, different, unique and so special, and together they all form an incredibly diversified and beautiful garden. A garden in which every flower and every different patch of color adds to the beauty of the garden. We invite you again to take part in the care of these flowers, offering confidence, hope and a fulfilled and meaningful life through your support.

The children and families in Caminul Felix will be again involved in many activities this summer: tours in and outside the country, repainting the exterior of some of the homes, gardening and other projects around the house, and we also hope they will be able to enjoy a week of relaxation somewhere.

We wish all of you a beautiful summer and special blessings!

Simona Puscas - Felix Family Villages Romania

Felix Family Village - Thailand

Is taking the step with Christer Nord to see the multipurpose building being raised. That will be the building where the Felix parents will be given the pedagogic tools that are necessary in sensitive situations and where the Ministry will share both advanced knowledge and the idea of giving a family to a deprived child.

What a fantastic year of activity we have seen! We see God's hand in action. Now we are looking forward to the summer and to its offer.

Lisa Egerbo - Project manager

Asia - Bangladesh

Berndt Sanfridson, Chairman of Caminul Felix Sweden, and Lars Hornberg will leave for Bangladesh to meet good people who want to see a work like Felix Villages being built. It seems like Bangladesh, situated on a delta as it is, is prone to poverty. Beautiful people with the immense burden of many hundred thousands of rejected and orphaned little ones. Berndt has lived in Bangladesh as a missionary and relief worker for many years. He is well acquainted with the land, and leads projects to better the infrastructure in many villages, drilling deep water wells and providing support to many a leader.

Remember us in your evening prayers. We will meet many churches, leaders, young couples and be calling them out for service as Felix parents. The construction project might start in a couple of years.

Lars Hornberg - Founder of Felix Family Villages

Felix in Africa

Our activities in Africa are developing very well. From our local office in Nairobi we are exploring which other organisations to work with, and also looking into how we should operate in the different countries. We are currently looking at Tanzania, Kenya, Uganda and Zimbabwe, partnering with local organisations to evaluate how best we set up operations on the ground. We are already supporting children on the ground, and are planning to set up towards the end of 2013.

Thank you for your support! It is what makes it possible!

Jesper Hornberg - Project manager
