THAILAND

Warm greetings from the children and families in the Felix Family Village. There is nothing more important to a child than to have a mother, father and a family. In the family, children can experience love, security, and develop into what they are meant to be. Here in the families builds the new generations of parents and leaders that will affect our nations in many blessed ways in the future.

A new little boy moved in with the family Supot in the middle of September. Another little boy moved in some weeks before that. We are so grateful for all children who moves in and gets a family. We believe and hope that many new sponsors and donors

will be a part in the Ministry so we can take in more children that are waiting to move in to a family.

I would like to thank you all who responded to my appeal for support to build our wall / fence around the village. In the same time I ask you all to continue to give support to this project because we need to receive more funds to start this important work.

Lisa Egerbo Hörnberg

Here is a message from Ning, one of the housemothers in the Felix Family Village:

We are so grateful and we highly appreciate all the support you give to our Felix Family Village. For me as a mother it gives a lot of power in my daily tasks when I

am thinking of you. Our work can sometimes be heavy. However, we know that God is with us every day and we do not give up. I often read from Gal 6: 9 and it gives me encouragement when I'm tired.

We thank God for our family that God has given us. Every child who has moved into our home makes our family bigger and we love it. I learn a lot as a mother from my children. I know it is God's plan for my life to be a mother for the children who have been abandoned. I see them growing every day and when I see the joy and love that is coming into their lives, I am filled with gratitude. Their eyes are today filled with warmth and security. We as parents must be involved and provide encouragement and love. It's wonderful and it is precious. I am so grateful for my family and we look forward to receiving more children into our family. As a family we have a moment every morning when we pray together and thank God for Felix Family Village and in the same time we pray for all of you. God bless you all with good health and many blessings.

Ning Junton

ROMANIA

We hope that this summer you've managed to have at least a few days of relaxation.

For us, in Romania, this summer was beautiful but hot, so after so many days with high temperatures, we really appreciate even more the coming of the fall, the refreshment and rain that it brings because the earth and the whole of nature so desperately needs it after months of drought.

In the months that have passed, many of the children at Caminul Felix lived moments of joy with their families in camps in the mountains or at the seaside.

But what joy could be greater than the joy of finding, this summer, a family and a place to be called "my home" - as it happened for several little children that arrived at Caminul Felix.

What an opportunity it is for us to show our love, compassion and care for the children that went through traumatizing experiences so early in life, experiences that leave deep traces that are difficult to erase. We are filled with emotion when we see joy where once were tears, and when happiness replaces the sadness on their faces.

Yes, overwhelmed with emotions we look at the little ones going to school for the first time, but also at the young people who finished their studies and now

have a good job that they go to with responsibility and a lot of commitment, thus honoring the efforts of those who gave so that they can become what they've become.

We equally rejoice with the young people at Caminul Felix that started their own families this summer, wishing them all a good life and heavenly blessings over their homes!

All these are happening because people like you believe in this ministry and help it go on. You are the ones that build bridges for these children, bridges to hope and healing, and we are thankful to you for that!

May you be blessed, dear friends!

Simona Pușcaș

BANGLADESH & AFRICA

We are taking a stand.

Dear friend, we are decided to let our presence and further resources as we see right be given to reach lost children. There is no other way to make a difference than to take action. We unite to do that. We describe children's loss when no one loves anymore, when food is scarce and life's resources and talents do not reach any further. We believe it is right to identify the need around us in the world and also close to us. And then give what we can for a new lives for the little ones. Come with us. And stay faithful.

Communicate ideas and constructive thoughts to us.

Return your answer to us as to what you see you should commit to do. For us all and most of all for the lost children of the world now is the time. We are taking a stand for them.
