ROMANIA

As we are beginning a new year, thoughts of gratitude and great appreciation are heading towards you, for all the support you've offered us this past year.

We are experiencing again that period of the year when we are full of hopes, aspirations and dreams. It's that period of the year when it seems we are more determined to make decisions, to make smaller or larger changes in our lives, or even to start walking on a new road. With these thoughts, we challenge you to make this year also be the year of great changes for a child that will come to Caminul Felix this year.

In 2015 we want to continue to be the family these little ones need; to be the shelter of those who cannot enjoy the warmth of a home today.

February 2015

We want to see again this year their smile and thrill of joy when they pronounce the word "home". This is our desire for the year we just walked into. We encourage you to join us in this pursuit through prayers and through financial support offered for a child at Caminul Felix.

We thank you because you have been and are there for us in this journey, and we kindly ask you to continue this journey with us, being aware that this is a road that we cannot walk by ourselves.

We wish you a year full of health for you and your dear ones and a year in which God's kindness will be with you every step of the way.

Simona Puscas

ROMANIA - Dairy Farm

What a blessings to have the milk and milk products for the entire 200 CF children.

There is lots of work before having milk on the table, and for this we are thankful to dr. Florin Beteg and his team for providing this.

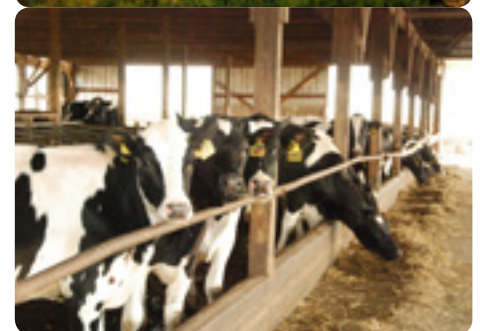

It quite a complex operation even the calves and cows are looking simple and cute.

Somebody said: "Dairy Farm is biology, not machinery"

This is right to some extend. And if you have a good vet around, honor him. But machineries and in special good machineries are important for a dairy farm. I am talking now from our experience as we work hard to repair and hopes so change soon our good old tractors with newer ones.

Maybe you want to help us and bless all departments of Caminul Felix.

Marcel Filip - president of Caminul Felix

THAILAND

Thank you fine sponsors and donors for Christmas gifts for our children and families. This means a lot!

In late January, we will be welcoming family Weerayoot into their new home. We told you about them in our latest newsletters, and that they have already received three siblings into their home. Now they are willing to accept more children. Please feel free to tell your friends about the importance to be a sponsor and help a child into a new life. Together we can make a difference!

A great joy and news we received during the holiday season when the Öppen Hand in Nyköping, Sweden decided to build another family home in our village. What a blessing! We hope to begin construction soon. Into this home, which will be number nine, the family Kosum and Banyat Chatupattarakrisin will move along with their two sons and a daughter. They have waited several years to enter the task as house parents and now the time is here. Banyat is a very talented artist and painting is his great gift. He is also a very good musician. Kosum is often seen in the church and elsewhere cooking and serving. We have previously asked for gifts

to build a house. We have some money that now will go toward house number 10. Once again we offer you the wonderful opportunity to participate. We would then be able to build the last two houses at the same time which lowers the cost. Please let us know if you see this as an opportunity.

In late January to early March, Timea and Razvan Petrica along with Lisa and Lars Hornberg will travel in the north of Sweden on a tour representing Felix Village in Thailand. Please see our website for an updated itinerary.

We hope and pray that you will continue to partner with us by being there with your support also during 2015.

Warm greetings,

Mong and Mana Rujirayanyoung

EXPANSION & DEVELOPMENT

The operations of Felix are spread across several continents, and even though there are big cultural differences between Eastern Europe, Far East Asia and East Africa, the fundamentals are the same. Children are abandoned during tragic events, and they are left to fend for themselves. They are

always stigmatised, and they never receive enough love and enough material support to be safe.

At Felix we work to meet the physical, spiritual, emotional and social needs of these orphaned and abandoned children, and we do so in a loving family setting.

Our Romanian villages have have seen several generations of children grow up in a safe and sound family setting. Romania is still grappling with large marginalised groups, and the problem with abandoned children persists. Our village in Thailand is growing, and is nearing completion. We are looking at expanding into Bangladesh with a village, and we have since a few years been supporting poor children in Kenya.

Our job will never stop. But instead of feeling overwhelmed by the sheer size of the problem, we know that every time we can help one child, we have been part of a miracle. We thank God for that, and we thank you for your support in making it happen.
